Responsible Use Policy (RUP) for District Computer Systems Information for Parents/Guardians/Educational Rights Holders

Purpose

The purpose of the District's Responsible Use Policy ("RUP") is to prevent unauthorized access and other unlawful activities by users online, prevent unauthorized disclosure of, or access to, sensitive information, and to comply with legislation including, but not limited to, the Children's Internet Protection Act (CIPA), Children's Online Privacy Protection Act (COPPA), Family Educational Rights and Privacy Act (FERPA), and the California Electronic Communications Privacy Act (CalECPA). Furthermore, the RUP clarifies the educational purpose of District technology. As used in this policy, "user" includes anyone using computers, Internet, email, and all other forms of electronic communication or equipment provided by the District (the "network") regardless of the physical location of the user. The RUP applies even when District-provided equipment (laptops, tablets, etc.) is used off District property. Additionally, the RUP applies when non-District devices access the District network or sensitive information. "Parent" is defined as a biological or adoptive parent, legal guardian, or educational rights holder who has rights to access pupil record information. **Only parents of current students are authorized to use the Parent Portal and associated applications.**

The District uses technology protection measures to block or filter access, as much as reasonably possible, to visual and written depictions that are obscene, pornographic, or harmful to minors over the network. The District can and will monitor users' online activities and access, review, copy, and store or delete any communications or files and share them with adults as necessary. Users should have no expectation of privacy regarding their use of District equipment, network, accounts, and/or Internet access or files, including electronic communications with District accounts. Users understand that the District has the right to take back possession of District equipment at any time.

The District will take all necessary measures to secure the network against potential cyber security threats. This may include blocking access to District applications, including, but not limited to, email, data management and reporting tools, and other web applications outside the United States and Canada.
