Using the Internet

Different Types of Websites

- 1. .gov Government best website source for research.
- 2. .edu Education also a good website source.
- 3. .org Organization Can be a good website source.
 - Wikipedia A good source, but should not be your only source, anyone can update on the site.
- 4A. .com Commercial Not always a reliable website, since it is controlled by a company that would want you to buy products.````
- 4B. .net Network For everyone else that doesn't fit the other categories. Be careful using these for sources.
- 5. .tv- Television a newer tag for television/media related sites.
- 6. .biz Business for businesses.
- 7. .info Information for informational sites.
- 8. .mobi Mobile for mobile sites.
- 9. .me Me for your own site.
